OIL STRIKERS GROWING DEFIANT IN KERN COUNTY

Extortion Charge in Arbuckle Case Presented Grand Jury

LIVE ON BEANS AND DIG TRENCHES, SAYS LEADER OF WORKERS

(The Associated Press.)
KARNERSFIELD, Cal., Sept. 27.—Following down to a bare bones the results of a short campaign, the strike of oil workers in the Kern county fields today again was reported to be a failure. They would not yield the principle of government participation in the contracts with producers, though the producers have refused to yield.

Walter J. Yarwood, who has been the men would "live on beans" rather than give way, complained of the distance later by saying they would live on beans and dig trenches. The strikers were busy yesterday in the road work and trenching.

A committee of concerned men from six oil fields today sent a letter to the oil producers, asking them to settle the strike by offering a settlement in the federal court.

CONSTABULARY IN FIGHT WITH BAND OF MOROS

(The Associated Press.)
MANILA, P. I., Sept. 27.—A fight between a detachment of Philippine constabulary and a band of Moros in Marang, island of Luzon, resulted in the death of a Philippine constable and two constabulary soldiers and seven Moros, according to reports.

One Philippine constable and seven Moros were wounded during the fight and several captured arms and one Moro were awarded and the constabulary.

BOLSHEVIK ARE READY TO HELP TURK FIGHTERS

(The Associated Press.)
BATH, Sept. 27.—Two divisions of bolshevik troops are reported to be encamped on the Turkish frontier ready to enter Turkish territory if the nationalists are defeated by the Greeks. Anti-bolsheviks, who were deported from Constantinople, were on their way back to Russia, but jumped overboard along the Turkish coast. They declare they prefer staying in Asia Minor, where they are being executed by the bolsheviks.

KU KLUX KLAN ARE BARRED FROM JURY

(The Associated Press.)
CHICAGO, Sept. 27.—Judge David yesterday barred members of the Ku Klux Klan from jury in his court. A negro woman was suing the city for damages as a result of the death of her husband in the 1919 race riots.

UNEMPLOYMENT ATTRIBUTED TO REDUCTION PAY

(The Associated Press.)
WASHINGTON, D. C., Sept. 27.—An investigation of labor is accepting work at reduced wages was assigned as the cause of some unemployment by Richard E. Phillips, director of labor statistics of the Massachusetts labor department. The first witness heard by the unemployment conference committee on unemployment statistics.

John C. Steward, president of the National Federation of Federal Employees, presented a prepared statement in which he declared "The federal government in its capacity as an employer has been contributing to the cause of the present unemployment situation, where it should have been an alleviating agency." The statement referred to the wage committee on emergency state and municipal measures and public works.

ROURKE DENIES PLAN FURNISH IRELAND ARMS

(The Associated Press.)
WASHINGTON, D. C., Sept. 27.—Complete denial of the charge of being engaged in a conspiracy to furnish arms to British subjects in Ireland, upon which George Gordon Rourke was arrested in New York last night, was made here by Rourke's attorney, this morning, today. "They have arrested the wrong man," Mason declared.

HORN SILVER SCHOOL DISTRICT REVIVED

The Hornsilver school district is to be revived and Mrs. Ruby Fitzgerald of Goldfield has been appointed teacher. There are 10 children at Hornsilver now, or five more than enough with which to reopen the school. Three trustees, Harry De Vette, Bert Hoffmann and A. Adam, have been appointed by W. J. Higgins, state superintendent of public instruction, and these trustees have selected Mrs. Fitzgerald to be the teacher.

CROP YIELD WILL BE ABOVE NORMAL

(The Associated Press.)
SAN FRANCISCO, Cal., Sept. 27.—Harvesting of basic crops of the Twelfth Federal Reserve district reveals that yields this year will be large in nearly all cases. John Perrier, federal reserve agent, declared in a report made public today.

REDUCED RATES ON VEGETABLES QUOTED

(The Associated Press.)
NEW ORLEANS, La., Sept. 27.—Reduced rates on vegetables from California to New Orleans will be made by rail lines on October 3. The new rate will be \$1.46 per hundred weight instead of \$1.66.

2 LOSE LIVES AS SUBMARINE R-6 GOES DOWN

(The Associated Press.)
SAN PEDRO, Cal., Sept. 27.—Only two men were lost when the submarine R-6 sank in Los Angeles harbor, but one of them was officially announced today by Rear Admiral Stikney, commander of the Pacific fleet train, and an officer was part of the disaster. The third man who was missing has been accounted for, together with all other officers and men.

The dead are R. Griffin, seaman, and Vincent Paulsen, seaman. Griffin was drowned when the R-6 sank because he was thrown into the water from the conning tower. A sailor from the Camden, mother ship of the submarine, to which the R-6 was moored, dived from the Camden in an effort to rescue Griffin, who could not swim. Griffin, however, broke away and sank. His body was recovered. Paulsen, it was stated, unquestionably was caught in the sinking craft and was drowned.

According to Rear Admiral Stikney, the accident resulted from the torpedo tube having been left open, through which water swept from a high swell in the harbor. Through that opening and a number of vents in the conning tower also open because of the warmth of the night, the rush of water soon gained great headway. The craft sank in two minutes.

SUNBEAM LEASE HAS SPLENDID SHOWING

A Sunbeam mining company, returned last night from Goldfield, where he spent several days investigating the Sunbeam lease on the Florence mine. He reports that there is a splendid showing of ore, although not of high grade, and that indications are favorable for important developments taking place within the near future.

This lease is being operated by the Sunbeam Mining company, and there are quite a number of stockholders in southern Nevada who are watching developments with interest.

CASH BOY SENDING OUT GOOD GRADED ORE

The Cash Boy Consolidated Mining company is going a great deal of work proving up ground that has caused contention with the Tonopah Extension Mining company, and this development is being rushed that maps and other data may be completed previous to the setting of the case for trial in the district court of Washoe county.

Recently an orebody was opened up on which there is no conflict, this discovery being made at a point 80 feet below the 1615 level. Drifting on the vein has progressed for 85 feet and the ore shows a width of from 2 to 2 feet. Shipments are being made from this ground and returns of close to \$20 a ton are being received on settlement. No shipping has been started to date, but as soon as the ground has been opened a sufficient distance the tonnage will be greatly augmented.

LUYD GEORGE WILL ANSWER WEDNESDAY

(The Associated Press.)
LONDON, Sept. 26.—Lloyd George will send the British government's answer to the latest note from De Valera Wednesday, it was learned today.

CRUDE OIL TAKES MARKED ADVANCE

(The Associated Press.)
PITTSBURGH, Pa., Sept. 27.—All grades of crude oil quoted in the Pittsburgh market were today advanced by the principal purchasing agencies.

SALVATION ARMY
The Salvation Army is making arrangements to open headquarters in Tonopah and a room has been secured on Main street opposite Elks hall. It is believed that the Army will receive liberal support here.

ALUM COMPANY ALMOST READY TO START MILL

The big mill at Alum, owned by the Western Chemicals, Incorporated, probably will be brought into commission within a few days. A force of men now is employed under the direction of Lou Townsend in road, testing the machinery and making a number of needed improvements and it is hoped to make a good production of alum and sulphur as soon as the wheels of the machinery are brought into action. W. B. Roberts, president and general manager of the company, has been at the seat of operations for some time past, and is well satisfied with conditions in general.

Efforts are still being made, and with very good success, to thoroughly finance this magnificent proposition, and when production starts the earnings made should be most substantial.

SWEETS MILL IS TREATING GOOD TONNAGE ORE

The second crop is now being harvested at the Sweets pump and by Ernest H. Sweets, who is employing a large force of men in harvesting the work. All danger of storms which might damage the ponds has apparently passed. Mr. Sweets is always inclined to be a little suspicious that rain may fall previous to September 26, and as a rule he has had a lot to contend with in previous years, but this season he escaped a deluge of rain.

From point of tonnage, this season probably will break all previous records and coupled with the fact that there remained about 500 tons from the Sweets mill which did not receive treatment, the Sweets mill at the Belmont property will be kept in ready operation for a much longer period than heretofore. With excellent weather continuing, the output promises to be heavy, but Mr. Sweets is leaving no stone unturned to make his cleanup as complete as possible.

GRANDMOTHER DIED ONCE TOO OFTEN

(The Associated Press.)
NEW YORK, Sept. 27.—Like other office boys, Jimmy, employed by the Guaranty Trust company, has a grandmother who dies frequently and conveniently whenever Jimmy wants a few days off.

But the last "death" nearly cost him his job and now is costing him all his spare pennies.

The bank's employees club felt so sorry for Jimmy that they sent a bouquet to grandmother's funeral. Came this telephone call from Jimmy's home:

"We have just received some flowers from the bank. Can you tell me what they are for?"

When Jimmy returned from the "funeral" it was decreed that he should refund the price of the flowers.

H. E. MARSH A FATHER

H. E. Marsh was notified yesterday that he was the father of a baby girl, the little miss having put in her appearance at the home of her grandmother, Mrs. Joanne, in Los Angeles. Mrs. Marsh and infant were reported as getting along nicely.

SOME WEATHER HERE

At noon today the temperature was 15 degrees warmer in Tonopah than it was on the same date and hour a year ago. There was a heavy atmosphere prevailing throughout the day and people were inclined to dispense with additional wraps which they had been wearing of late.

PRELIMINARY TRIAL IS CONTINUED TODAY IN SAN FRANCISCO

(The Associated Press.)
SAN FRANCISCO, Cal., Sept. 27.—The preliminary trial of the charge of extortion, made in court against Alfred Semmacher, a prosecution witness, had been disposed of. The extortion charge was disposed of, it was intimated, by action of the San Francisco grand jury, which last night heard Semmacher's story and "placed it on the record." Semmacher denied to the jury any knowledge of a plan to extort money from the defendant as alleged by Frank Dominguez, chief counsel for Semmacher. Mrs. Dominguez probably will be the main witness today.

The report gave no details. The Americans were employed by the Dolores Mining company. Counsel for Semmacher, however, said that Dominguez received assurances from the governor of California that he would immediately send a detachment of rurales in pursuit of the bandits. He also gave permission for the delivery of the bodies to the consul for shipment to the United States.

TWO AMERICAN MINING MEN ARE KILLED BY MEX

(The Associated Press.)
WASHINGTON, D. C., Sept. 27.—The killing of two American mining men, H. C. Smith of Oklahoma, and E. H. Klingenberg, of Los Angeles, by Mexicans at Dolores, Mexico, was reported to the state department today by Vice Consul, C. H. Chihua.

The report gave no details. The Americans were employed by the Dolores Mining company. Counsel for Semmacher, however, said that Dominguez received assurances from the governor of California that he would immediately send a detachment of rurales in pursuit of the bandits. He also gave permission for the delivery of the bodies to the consul for shipment to the United States.

NEGROES UNDER SENTENCE LOSE APPEAL FIGHT

(The Associated Press.)
LITTLE ROCK, Ark., Sept. 27.—Harris corpus proceedings, brought on behalf of six Negroes, Arkansas, negroes under sentence of death for murder in connection with the killing in Phillips county two years ago, were dismissed by Federal Judge Central today. Attorneys for the negroes gave notice of appeal to the United States supreme court.

ARROWHEAD SHAFT SINKING TO START

Shaft sinking on the male Arrowhead property probably will be started within the next week. Timbers have been delivered and the shaft is being repaired down to the 330 level, and Pete Fox, the superintendent, expects to have everything in readiness shortly whereby machine drills will be brought into use in the lowering of the shaft to the 600-foot point. Some delay has been occasioned owing to non-arrival of certain parts for the gasoline engine, but the ball of lading has been resolved, and they should arrive any day.

The campaign of development that has been outlined by the Arrowhead Mining company promises to bring the Arrowhead district into the limelight. In the event that the persistence of the orebody is proven at the 600-foot point, it is planned to construct a modern milling plant, the equipment of which will be suitable to the ore of that section. It is proposed to make the capacity large enough to treat custom ore and there are a number of properties that show milling ore that will take advantage of the opportunity to have their product reduced.

BELLEHELEN BOOSTER

Frank Dorthy, who is interested in mining property at Bellehelen, is spending a few days in Tonopah. Mr. Dorthy thinks his district is in line for real excitement during the next few months, and says that numerous mineral finds have been made of late.
